

Workshop on Harmonic analysis and Partial differential equations

Hantaek Bae(UNIST)
Myeongju Chae(Hankyong National
University)
Zihua Guo(Peking University)
Seheon Ham(KIAS)
Hyungjin Huh(Chung-Ang University)
Gyeongha Hwang(UNIST)
Bongsuk Kwon(UNIST)
Satoshi Masaki(Hiroshima University)
Tetsu Mizumachi(Kyushu University)
Yoshio Tsutsumi(Kyoto University)

Harmonic analysis and partial differential equations have been closely linked areas in recent decades, with ideas flowing back and forth and stimulating progress in both areas. This workshop will bring together researchers in these two fields in east asia, some who have worked in both fields and some who have specialized in one field but are interested in learning more about the other. The aim is to strengthen existing links between the areas and encourage communication between researchers in both fields.

Sep 18~20 at E6, KAIST

Organisers: Yonggeun Cho,
Soonsik Kwon,
Sanghyuk Lee
